

HORSE LAKE FIRST NATION

Oilfield Construction Corporation

Commitment to Excellence

HLFN Oilfield Construction Corporation (HOCC) is a civil contractor based in the Horse Lake First Nation with over 10 years of experience in the resources industry throughout Western and Northern Canada. HOCC is proud to be an Aboriginal member of the Canadian Council for Aboriginal Business.

chemco

We Build Relationships

Chemco has been providing industrial contracting services to Canadians for over 60 years. With a focus on construction and maintenance solutions in a wide array of industries, Chemco is proud of its stellar safety record and long-standing customer relationships.

Unified Vision on our Collaborative Journey

United Focus on Safety

As a united front, HOCC and Chemco prioritize the safety and well-being of our employees, fostering an environment that inspires and values each individual while exceeding industry safety standards.

Empowering Our People, Contractors, and Customers

We commit to provide equitable opportunities for all involved in our operations. Our collaborative success hinges on the trust our customers place in our ability to meet their expectations in safety, pricing, service, and expertise.

Enriching our Nations and Communities

Our shared commitment extends to Nation and community enrichment, supporting registered Canadian non-profits focused on healthcare and child development. We are proud of our contributions and strive to foster economic development, education, and training within our Nations and communities.

Protecting the Environment

Together, we are committed to minimal environmental impact and active engagement with environmental stakeholders. Our deep connection with the lands we operate on drives us towards environmental stewardship, harmonizing our business goals with a shared vision of environmental sustainability for future generations.

Supplying **quality construction and maintenance services** to the energy industry.

The synergy of HOCC's intimate local expertise and Chemco's capacity for large-scale operations signals an exciting time for the resources sector throughout the region. The formation of this potent alliance promises to deliver unparalleled construction and maintenance solutions with industry-leading safety standards and a commitment to Nation engagement.

Civil/Earthworks

Excavating, stripping, grading, site development, and road construction are at the core of our civil construction department. We understand that each project is unique, requiring tailored solutions that deliver results. Our team of highly skilled operators and project managers are equipped with the knowledge and expertise to handle any challenge, no matter the size or complexity.

Pipelines

Our Pipeline experience is unmatched, with certification to ABSA, BCSA, and CSA Standards. Our capable team ensures timely and safe completion of Process Piping, Pipeline Crossing, and New Pipeline projects. With over 100 years of combined management expertise in pipeline construction, our experienced team guarantees successful outcomes every time.

Logistics & Transportation

Federally approved to haul across the country, our fleet of Tandem and Tri-Drive winch Tractors with multiple trailer combinations (up to 48 wheel) can deliver your payload.

Hydrovac & HDD

Our highly trained operators run our large fleet of modern hydrovac, steam, and water trucks across Canada. Coupled with our 6 to 40 ton horizontal drills specializing in small to medium bore projects.

Access Matting

With locations across Canada we stock and install a wide variety of matting solutions to fit your needs. Whether providing temporary access to remote locations or a permanent platform for your project, Our Access Matting Division has the equipment and experience to keep you moving.

General Contracting

Strong project management and experience with multiple disciplines gives our clients the confidence to trust us with the construction of their projects.

Fiber Optics

From pipeline leak detection to fiber to home, our fiber optics group has pulled, spliced and terminated hundreds of kilometers of fiber across Canada.

Railway Civil Construction and Maintenance

With our extensive line of equipment, and personnel with years of experience in Railway Construction and Maintenance, we offer the railway industry a well-rounded solution to your day-to-day challenges.
